**About CloudCall Group Plc**

CloudCall is a software and unified communications business that has developed and provides a suite of cloud-based software and communications products and services. CloudCall's products and services are aimed at enabling organisations to leverage their customer data to enable more effective communications.

The CloudCall suite of software products allows companies to fully integrate telephony and messaging capability into their existing CRM software, enabling communications to be made,

recorded, logged and categorised from within the customer relationship management (CRM) system with detailed activity reporting and powerful business intelligence capable of being easily generated.

At the end of June 2018, the Company had approximately 140 staff based predominantly in Leicester and London (UK), Boston (US) and Minsk (BY), with 27,000 end-users relying on CloudCall technology to power their daily communications.
